

Name \_\_\_\_\_

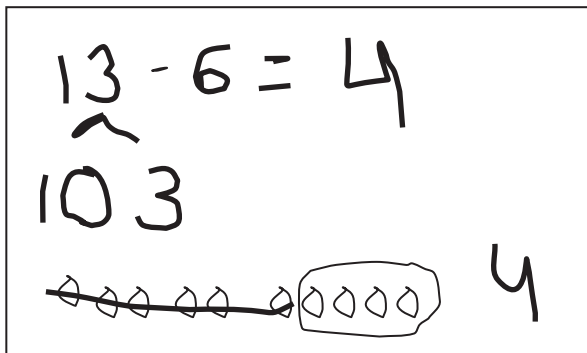

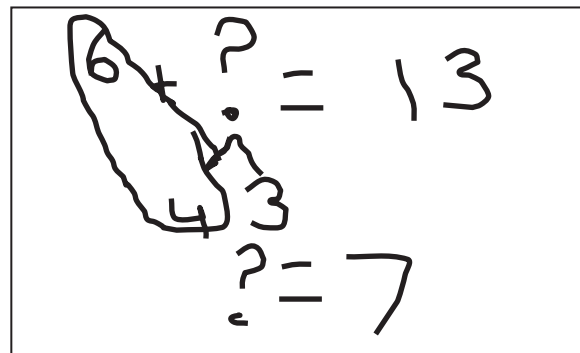

Date \_\_\_\_\_

Olivia and Jake both solved the word problems.  
Write the strategy used under their work.  
Check their work. If incorrect, solve correctly.  
If solved correctly, solve using a different strategy.

Strategies:

- Take from 10
- Make 10
- Count on
- I just knew

1. A fruit bowl had 13 apples. Mike ate 6 apples from the fruit bowl. How many apples were left?

Olivia's workJake's work

a. Strategy: \_\_\_\_\_

b. Strategy: \_\_\_\_\_

c. Explain your strategy choice below.

2. Drew has 17 baseball cards in a box. He has 8 cards with Red Sox players, and the rest are Yankees players. How many Yankees player cards does Drew have in his box?

Olivia's work

$17 - 8 = 9$

Jake's work

$17 + 8 = 25$

a. Strategy: \_\_\_\_\_

b. Strategy: \_\_\_\_\_

c. Explain your strategy choice below.
